

MIDGET

■ MODEL
1206

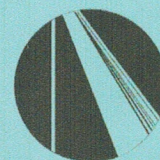

■ **CAN GO
FROM THE
SMALLEST PIN
SPOT TO THE
LARGEST FULL
STAGE FLOOD**

Brighter, smaller, quieter and more flexible than any of its competitors, the MIDGET does away with the need to have two different followspots to cover all spot sizes and intensities. With the exclusive spread

lens system, the MIDGET can go from the smallest pin spot to the largest full stage flood. Users will find the moderately priced Lycian MIDGET built to the highest and most rigid professional standards with a host of the niceties that make the unit a joy to use and service.
